

# Reproducibility, Reliability, and Integrity in Scholarly Research: What Accountability for Willful Disregard?

Carl Taswell

Brain Health Alliance, Ladera Ranch, CA, USA

BHAVI Symposium online 9 October 2023

## Questions Seeking Answers

- What accountability for willful disregard of reproducibility, reliability, and integrity in scholarly research?
- Doctors and lawyers must be licensed to practice. Teachers in schools must be licensed to teach students. Why do we not require researchers to be licensed to conduct research?
- Which organizations should address concerns about fraud, falsification, plagiarism, and misconduct in research?
- To which independent and impartial venue, devoid of conflicts of interest, should we submit complaints when a researcher with less power and money becomes a victim exploited by a researcher with more power and money?
- How should we heal and cure the worsening problem in academia of *Grooming, Gaslighting, and Ghosting*?

# Guardians 2024

- 9 Jan 2024 Report website opens for submissions
- 9 Oct 2024 Author presentations online at Guardians 2024
